About an Audio Snapshot

Hello!

Thanks for downloading this document. It is your first step to increasing your appreciation of your voice, your spoken word expression and your delivery style.

An audio snapshot is a quick, easy recording you can make of your voice as you speak.

As a voice coach and spoken word practitioner, I use these audio snapshots with my clients in order to listen, analyse and provide verbal feedback to them. It is a handy way for people to learn, to make progress and to hear the changes they are achieving.

To complete an audio snapshot of your voice and submit it to me, simply:

1. Prepare some information about yourself: your work, your interests or similar
2. When you are ready, call +61 3 8610 0193 and speak into the telephone
3. Clearly say your name and give your contact number
4. When you've finished, hang up and
5. Send an email to sandra@voice-word.com.au so that I can provide you with a copy of your audio file

The wav file of your recording comes to a secure, 100% confidential place in my personal computer. After listening to your audio snapshot, I contact you and we have a conversation about my findings. Given that you would like to pursue voice work with me, I provide you with a program scope. We finalise the approach and start working together. It's that simple!

I have worked with thousands of people who came to me as complete strangers. Across the board, these men and women have:

- increased their spoken word confidence and clarity
- expanded and enhanced the impact of their voice when speaking
- grown in stature and presence in their chosen professional fields
- willingly and enthusiastically recommended my services to others

You have everything to gain by investing in your vocal prowess. Get started today.

I look forward to hearing from you. Till then, enjoy your voice!
